

Student Worksheet
Class Yeast Catalase Experiment

Name:

Research question

Hypothesis with explanation:

Independent variable (**IV**) and values of the **IV**

Dependent variable (**DV**) with measurement techniques and units:

Number of trials:

How many replicates for each value of the **IV** in one trial?

Student Worksheet (continued)

Control(s):

Constants

Possible sources of experimental error

List of materials used

Data book page reference for step by step procedure

Data book page reference for raw data
